Reimbursement Policy designation of Professional or Facility application is based on how the provider is contracted with the Plan. This Policy supersedes direction provided in Bulletins prior to the effective date of this policy.

PURPOSE:

The purpose of this policy is to provide the Plan's reimbursement direction for modifier 52 and modifier 53.

REIMBURSEMENT GUIDELINES:

Modifier 52: Reduced Services

Modifier 52 is used to report a service or procedure that is performed at a reduced level from what is specified by the code descriptor. When a physician does not complete a procedure in its entirety or elects to partially reduce or discontinue the procedure for reasons other than the patient's well-being being threatened, the procedure must be billed by appending modifier 52. Please refer to CPT coding guidelines for more specific information on the reporting of modifier 52.

Modifier 53: Discontinued Procedure

In certain instances, a physician may decide to terminate a procedure due to extenuating circumstances, such as if the well-being of the patient is threatened, making it necessary to indicate that the surgical or diagnostic procedure was started but discontinued. This circumstance must be reported by appending modifier 53 to the code reported by the physician for the discontinued procedure. Please refer to CPT coding guidelines for more specific information on the reporting of modifier 53.

A checked box indicates the policy is applicable to that market either entirely, or partially, as indicated within the policy.
