Highmark Reimbursement Policy Bulletin

HISTORY VERSION

Bulletin Number:	RP-052		
Subject:	Surgical Team		
Effective Date:	September 30, 2019	**End Date:**	
Issue Date:	August 14, 2023	**Revised Date:**	August 2023
Date Reviewed:	July 2023		
Source:	Reimbursement Policy		

Applicable Commercial Market	**PA**	☒	**WV**	☒	**DE**	☒	**NY**	☒
Applicable Medicare Advantage Market	**PA**	☒	**WV**	☒	**DE**	☒	**NY**	☒
Applicable Claim Type	**UB**	☐	**1500**	☒				

A checked box indicates the policy is applicable to that market either entirely, or partially, as indicated within the policy.

Reimbursement Policy designation of Professional or Facility application is based on how the provider is contracted with the Plan. This Policy supersedes direction provided in Bulletins prior to the effective date of this policy.

PURPOSE:

The Plan recognizes modifier 66 ("Team Surgery") when appended to a service to indicate a surgical **team** was required to perform complex surgical service(s). This is usually accomplished by more than two (2) physicians or other qualified healthcare professional working together during an operative session in the management of a specific surgical procedure.

The team-based surgical service may be identified by each participating physician by appending the modifier 66 to each procedure code submitted for specific services rendered. The use of modifier 66 should be used by each of the involved providers on the surgical team.

REIMBURSEMENT GUIDELINES:

Team Surgery should only be billed if a team of surgeons (more than 2 surgeons of different specialties) is required to perform a specific procedure. Each participating physician bills for the applicable procedure for their individual services with a modifier 66. The modifier should be used when a team-based approach is required during the same operative session, for the same beneficiary, and the same date of service. The Team Surgery indicator in the current CMS National Physician Fee Schedule Relative Value Guide provides indicators of whether team surgery is billable for a specific procedure.

CMS National Physician Fee Schedule Relative Value Guide Team Surgeons Indicator List

0 = Team Surgeons not permitted for this procedure
1 = Team surgeons may be paid; supporting documentation required
2 = Team surgeons permitted
9 = Team surgeon concept does not apply

Services reported with modifier 66 must be sufficiently documented to establish a **surgical team** was indicated and medically necessary. The procedural medical documentation should describe the specific surgeon's involvement in the total procedure. All claims for team surgeons must contain sufficient information to allow accurate claims pricing for the team-based procedure(s). If any or all physicians participated in the surgery fail to appropriately use the modifier, claims may be denied for duplication or suspected duplicate services. Claims submitted without documentation will be denied.

The Plan will reimburse 80 percent of the allowable when the CMS Team Surgeons Indicator is a one (1) or two (2).

DEFINITIONS:

Modifier	Definition
66	Surgical Team (more than two surgeons of different specialties)
