Reimbursement Policy designation of Professional or Facility application is based on how the provider is contracted with the Plan. This Policy supersedes direction provided in Bulletins prior to the effective date of this policy.

PURPOSE:

This policy addresses reimbursement guidelines for vaccines provided at no cost to the provider by a state or federal agency.

DEFINITIONS:

SL Modifier: State supplied vaccine

REIMBURSEMENT GUIDELINES:

Vaccines and Vaccine Administration

The Plan does not reimburse for vaccine(s) obtained at no cost to the provider. Modifier SL is used to identify the vaccine(s) was obtained at no cost to the provider. The Plan will reimburse for the administration of the vaccine(s) in accordance with the patient's benefit coverage. The SL modifier should **not** be appended to the administration code.

Report the administration of state-supplied vaccines as follows:

1. Procedure codes for both the vaccine supply and the administration should be submitted on the same claim.
2. Report the vaccine supply using the appropriate procedure code(s) and append modifier SL for the vaccines administered.

3. Report the administration service(s) with the CPT code(s) that accurately reflects the administration of the vaccine(s). Do not append modifier SL to the administration procedure code(s).

Administration codes include vaccine risk/benefit counseling when performed. Therefore, a separate evaluation and management (E/M) code should **not** be reported, unless performed as a separately identifiable service distinct from the vaccine administration and documented in the medical records. E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line.

Applicable Administration codes:

*90460 *90461 *90471 *90472 *90473 *90474 G0008 G0009 G0010

***Note:** Do not report codes 90460–90474 for the administration of SARS-CoV-2 (Coronavirus disease [COVID-19]) vaccines.

Coronavirus [COVID-19] (SARS-CoV-2) Vaccine and Administration

Effective January 1, 2022, the Plan **will** separately reimburse for the vaccine(s) and administration(s) of the vaccine(s) in accordance with the patient's benefit coverage. E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line. Please see history versions of this policy for reimbursement direction prior to January 1, 2022.

Applicable coronavirus (COVID-19) vaccine codes:

91304 91311 91318 91389 91320 91321 91322

Applicable coronavirus (COVID-19) vaccine administration codes:

*M0201 90480

Note: Report SL modifier with codes for vaccines received for free.

***Note:** M0201 will only be reimbursed in the Home place of service when billed by itself or with a coronavirus vaccine code and/or coronavirus vaccine administration code.

Coronavirus [COVID-19] (SARS-CoV-2) Antibody Treatment and Antibody Treatment Administration

Effective January 1, 2022, the Plan **will** separately reimburse for the antibody treatment(s) and administration(s) of the antibody treatment(s) in accordance with the patient's benefit coverage, for dates of service between January 1, 2022, and the effective date in which the EUA was rescinded for that service.

E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended. See policy history versions for direction prior to January 1, 2022.

Applicable Antibody Treatment codes: Q0249

Applicable Antibody Treatment Administration codes: M0248 M0249 M0250

Note: Report SL modifier with codes for antibody treatments that were received for free.

The FDA has rescinded the emergency use authorization (EUA) for the monoclonal antibody therapy and COVID vaccine services listed below. These treatments, as well as the administration thereof, will not be separately reimbursed on and after the date indicated.

Reimbursement Policy designation of Professional or Facility application is based on how the provider is contracted with the Plan. This Policy supersedes direction provided in Bulletins prior to the effective date of this policy.

PURPOSE:

This policy addresses reimbursement guidelines for vaccines provided at no cost to the provider by a state or federal agency.

DEFINITIONS:

SL Modifier: State supplied vaccine

REIMBURSEMENT GUIDELINES:

Vaccines and Vaccine Administration

The Plan does not reimburse for vaccine(s) obtained at no cost to the provider. Modifier SL is used to identify the vaccine(s) was obtained at no cost to the provider. The Plan will reimburse for the administration of the vaccine(s) in accordance with the patient's benefit coverage. The SL modifier should **not** be appended to the administration code.

Report the administration of state-supplied vaccines as follows:

1. Procedure codes for both the vaccine supply and the administration should be submitted on the same claim.
2. Report the vaccine supply using the appropriate procedure code(s) and append modifier SL for the vaccines administered.

3. Report the administration service(s) with the CPT code(s) that accurately reflects the administration of the vaccine(s). Do not append modifier SL to the administration procedure code(s).

Administration codes include vaccine risk/benefit counseling when performed. Therefore, a separate evaluation and management (E/M) code should **not** be reported, unless performed as a separately identifiable service distinct from the vaccine administration and documented in the medical records. E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line.

Applicable Administration codes:

*90460 *90461 *90471 *90472 *90473 *90474 G0008 G0009 G0010

***Note:** Do not report codes 90460–90474 for the administration of SARS-CoV-2 (Coronavirus disease [COVID-19]) vaccines.

Coronavirus [COVID-19] (SARS-CoV-2) Vaccine and Administration

Effective January 1, 2022, the Plan **will** separately reimburse for the vaccine(s) and administration(s) of the vaccine(s) in accordance with the patient's benefit coverage. E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line. Please see history versions of this policy for reimbursement direction prior to January 1, 2022.
