➔ A checked box indicates the policy is applicable to that market either entirely, or partially, as indicated within the policy.

Reimbursement Policy designation of Professional or Facility application is based on how the provider is contracted with the Plan. This Policy supersedes direction provided in Bulletins prior to the effective date of this policy.

PURPOSE:

This policy is a reference to assist in the identification of which reimbursement policies contain guidelines for reporting procedure code modifiers.

The list of modifiers in this policy may not be all-inclusive. Missing modifiers or policy cross references in this policy does not excuse providers from reporting modifiers as required by another reimbursement policy or industry correct coding standards. Questions about modifiers and correct coding can be addressed to the Plan's Provider Service department.

Reimbursement Policy designation of Professional or Facility application is based on how the provider is contracted with the Plan. This Policy supersedes direction provided in Bulletins prior to the effective date of this Policy.

PURPOSE:

This policy is a reference to assist in the identification of which reimbursement policies contain guidelines for reporting alphabetical or numerical procedure code modifiers. The Plan intends to update this reference as existing reimbursement policies change, existing modifiers change, or as new policies and modifiers are issued.

Note: The list of modifiers in this policy may not be all-inclusive. Missing modifiers or policy cross references in this policy does not excuse providers from reporting modifiers as required by another reimbursement policy. Questions about modifiers and correct coding can be addressed to the Plan's Provider Service Department.

Reimbursement Policy designation of Professional or Facility application is based on how the provider is contracted with the Plan. This Policy supersedes direction provided in Bulletins prior to the effective date of this Policy.

PURPOSE: This policy is a reference to identify which reimbursement policies contain guidelines for reporting alphabetical or numerical procedure code modifiers. Highmark intends to update this reference as existing reimbursement policies change, existing modifiers change, or as new policies and modifiers are issued. However, if a modifier mentioned in another reimbursement policy is not in the list below, it is an inadvertent error and nothing herein shall be construed to excuse the provider from reporting the modifier if required by such other reimbursement policy. Questions about modifiers and correct coding can be addressed to the Plan's Provider Service Department.
