Disclaimer

Highmark Health Options medical policy is intended to serve only as a general reference resource regarding coverage for the services described. This policy does not constitute medical advice and is not intended to govern or otherwise influence medical decisions.

POLICY STATEMENT

Highmark Health Options may provide coverage under the medical-surgical benefits of the Company's Medicaid products for medically necessary benefits.

This policy is designed to address medical necessity guidelines that are appropriate for the majority of individuals with a particular disease, illness or condition. Each person's unique clinical circumstances warrant individual consideration, based upon review of applicable medical records.

The qualifications of the policy will meet the standards of the National Committee for Quality Assurance (NCQA) and the Delaware Department of Health and Social Services (DHSS) and all applicable state and federal regulations.

DEFINITIONS

Highmark Health Options (HHO) – Managed care organization serving vulnerable populations that have complex needs and qualify for Medicaid. Highmark Health Options members include individuals and families with low income, expecting mothers, children, and people with disabilities. Members pay nothing to very little for their health coverage. Highmark Health Options currently services Delaware Medicaid: Delaware Healthy Children Program (DHCP) and Diamond State Plus members.

Medical nutrition therapy (MNT) – An important part of prevention and treatment of many diseases and conditions. MNT is the assessment of the individual's nutritional status followed by therapy. The overall goal of MNT is to assist the individual in making changes in nutrition and exercise habits leading to improved health through optimal nutrition.

POLICY POSITION

Prior authorization is required.

Note: Utilization management clinician can authorize up to six visits without a Medical Director review. After six visits, route case to a Medical Director for review.

Medical nutrition therapy (MNT) is an important part of prevention and treatment of many diseases and conditions. MNT is the assessment of the individual's nutritional status followed by therapy.
