Provider Post-Service Appeal Instructions: This form is exclusively for providers to appeal post-service denials. This includes denials due to lack of prior authorization or denials based on medical necessity. Limit one form per member.

Appeals submitted on behalf of members, or for prior authorization denials before services are rendered, are not accepted using this process. Do not submit non-participating Medicaid or D-SNP pre-service appeals using this process.

Your written appeal must contain a concise and detailed explanation of why you believe the denial was incorrect. Clearly document the specific reason for your appeal. Your appeal must also include complete and relevant supporting clinical documentation. This documentation is crucial for evaluating your appeal and must justify the medical necessity of the denied services: insufficient documentation may result in a denial. Required documentation may include, but is not limited to: physician’s office notes, prescriptions, history and physical notes, admission notes, discharge summaries, operative notes, emergency room notes, lab results, radiology reports, therapy notes and any other pertinent medical records. Timely filing limits apply.
