

Other Screenings

Based on the Bright Futures Periodicity Schedule there are other times when providers are encouraged to provide risk assessment. The following screenings are provided as additional resources for physicians.

Highmark Wholecare does not endorse or require any specific screening tool for screening purposes. This list is not all-inclusive, and other validated screening tools may be available. Each practice is encouraged to utilize a screening tool that is best suited for their individual situation.

Recommended Coding: 96127 (if more than one screening is needed/used and the same code is used, please use modifier 59 to indicate separate services).

Validated Screening Tool	Age for Use	Description	Administration Time Scoring information (if available)	Where to find additional information / purchase
Psychosocial and Social-emotional Screening Tools				
Ages and Stages Questionnaires: Social-Emotional (ASQ:SE)	3 – 66 months	Parent completed questionnaires designed to identify children in need of additional assessment. Personal-social areas assessed include self-regulation, communication, autonomy, coping, and relationships. Varies from 21-32 items, depending on age interval. English and Spanish versions available	10-15 minutes Scoring: Scores on the ASQ: SE can be compared with empirically derived cutoff scores that indicate whether a child needs additional evaluation.	Product information: https://brookespublishing.com/product/asqse-2/ Parent, caregiver; requires a 5th – 6 th grade reading level.
Strengths and Difficulties Questionnaire® (SDQ) English / Spanish / Vietnamese / Arabic / Nepali / Swahili *Numerous other languages also available*	3-16 years	The SDQ is a brief behavioral screener that has been translated into more than 80 languages.	10 minutes	SDQ® Product information: http://www.sdqinfo.org/
