REGISTERING FOR OB CARE

(PART I a)

Go to obcare.optum.com

IF YOU ALREADY HAVE A ONE HEALTHCARE ID:

Click Sign in and use your One Healthcare ID credentials to log in to OBCare.

After logging in, you will see a page asking you to “Complete Your Registration” by signing up for a clinic. Your user account is tied to a clinic, which allows you to see the patient records for patients within your clinic (or if you are solely an admin, to manage the users for your clinic).

Use the search bar to search for your clinic. Select your clinic.

Your account will be pending until your clinic admin approves your access and assigns your access level.

REGISTERING FOR OB CARE

(PART I b)

Go to obcare.optum.com

IF YOU DO NOT HAVE A ONE HEALTHCARE ID:

Click Register. You will be directed to One Healthcare ID where you will need to make an One Healthcare ID account.

Check your inbox for the email address you used to register. You will receive an email that will ask you to activate your One Healthcare ID. Click "Activate."

This will bring you back to One Healthcare ID. Now click "Continue."

Click "Agree" to allow One Healthcare ID to share your user credentials with OB Care. This allows you to use your One Healthcare ID to sign into OB Care.

You will be signed into OB Care automatically (just this time), and you will see a page asking you to "Complete Your Registration" by signing up for a clinic. This will allow you to see the patient records for patients within your clinic.

Use the search bar to search for your clinic. Select your clinic.

Your account will be pending until your clinic admin approves your access and assigns your access level.

REGISTERING FOR OB CARE

(PART 2)

Even if your clinic does not have a clinic admin, follow the previous steps on pages 3 or 4 for One Healthcare ID registration.

After using search bar to search for and select your clinic, you may see a message describing that your registration is complete but your clinic does not have a designated admin yet.

This means that you are the first person to sign up for OB Care in your clinic and we will need to verify your account.

To continue with OB Care registration, contact OB Care Support.

1. NAVIGATION LINKS

Select any of the navigation links on the top header to go to the respective section of the application.

2. TILES

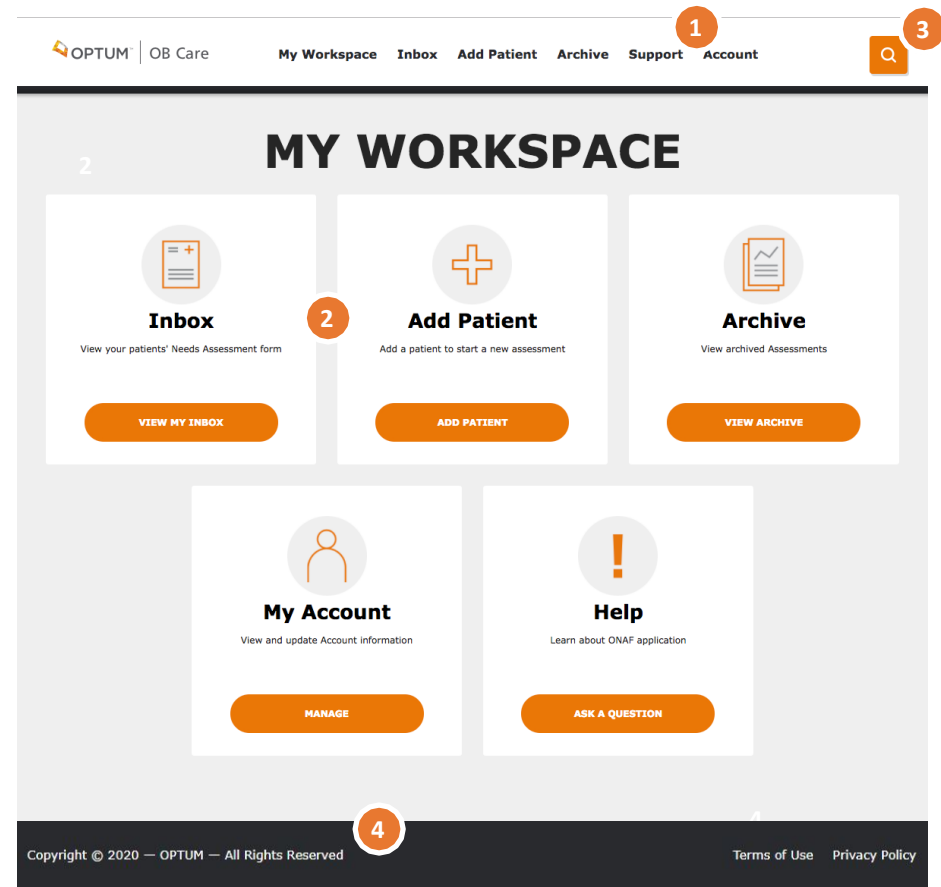

Select any of the tiles on the Workspace and you will also get to the respective section of the application.

3. SEARCH

Select the button for 'Search' to navigate to the Search screen where you can search for a patient record.

4. FOOTER

Use the footer to navigate to the Terms and Conditions and the Privacy Policy.

SEARCH

Click the search icon in the top left corner of the workspace.

1. SEARCH CRITERIA

Enter a patient name in the Search box. Hit enter to return the results.

2. SEARCH RESULTS

Navigate through search results to find the desired patient and select to enter the patient's record.

3. ADD PATIENT

If the patient record you searched for does not exist, you can add the patient by clicking the Add Patient button.

INBOX

Click the 'Inbox' navigation link at the top of the page, or from 'My Workspace' select the title 'Inbox'

NOTE : if you are new to the OB Care tool, the Inbox will look blank until you have created your first patient record.

1. FILTERS

Filter works separately from search. You can select a filter from the dropdown list.

2. PATIENT LIST

Patient List default is All Patients and shows 10 patients per page, but this can be narrowed down by a filter or search.

3. PATIENT LIST NAVIGATION

The Next and Back button allow you to navigate through the Patient List (up to 10 patients displayed per page).

4. EDITING A PATIENT FORM

To enter a patient form and start making changes, click the pencil icon.

5. VIEWING A PATIENT FORM

To simply view a patient record, click the document icon from the Inbox and you can view a preview of the form submission to the MCO.

The screenshot displays the 'INBOX' section of the OPTUM OB Care interface. At the top, there is a navigation bar with 'OPTUM | OB Care' and several menu items: 'My Workspace', 'Inbox', 'Add Patient', 'Archive', 'Support', and 'Account'. Below the navigation bar, the 'INBOX' title is followed by the subtitle 'View your Patients' Needs Assessment Form.'. A search bar is located in the top right corner. The main content area shows a table with the following columns: 'FULL NAME', 'DOB', 'MEMBER MAID', 'SUBMITTED BY', 'SUBMITTED DATE', 'LAST VISIT TYPE', 'STATUS', and 'ACTION'. A single patient record is listed: 'Jane Doe', '1/8/1992', '485930239', '--', '--', 'Prenatal', 'In Progress'. The 'ACTION' column for this record contains two icons: a document icon and a pencil icon. The interface also includes an 'ADD FILTER' button, a 'Showing 1 - 1 of 1' indicator, and 'BACK' and 'NEXT' navigation buttons. The footer contains the text 'Copyright © 2020 — OPTUM — All Rights Reserved' and links for 'Terms of Use' and 'Privacy Policy'.

ADD PATIENT

Click the 'Add Patient' navigation link at the top of the page, or from 'My Workspace' select the tile 'Add Patient'

1. ADD PATIENT

Enter 'First Name,' 'Last Name,' 'MCO Member ID' and 'DOB.'

2. SUBMIT OR CANCEL

Click Submit to continue filling out the ONAF for a visit or click Cancel to void adding the patient.

The screenshot shows the 'ADD PATIENT' form in the OPTUM OB Care system. The form is titled 'ADD PATIENT' in an orange header. It contains four input fields: 'First Name', 'Last Name', 'MCO Member ID', and 'DOB'. A red circle with the number 1 is positioned over the 'First Name' field. Below the form are two buttons: a dark grey 'CANCEL' button and an orange 'SUBMIT' button. A red circle with the number 2 is positioned over the 'SUBMIT' button. The top navigation bar includes the OPTUM OB Care logo, 'My Workspace', 'Inbox', 'Add Patient', 'Archive', 'Support', and 'Account' links, along with a search icon.

VISIT TYPES

1. SELECT A VISIT

Select the visit (First Prenatal, 28-32 Week, Postpartum, or an additional Risk Visit) for which the ONAF is being submitted.

The First Prenatal, 28-32 Week, and Postpartum visits can be submitted once. The Risk visit can be submitted multiple times so the user has to the opportunity to update the ONAF with changes and/or corrections. After the Postpartum has been submitted, the patient is removed from the Inbox and placed into the Archive where the patient can no longer be edited.

2. FILLING OUT THE FORM

You can go to the individual sections of the form by clicking the associated button. Once the required information is collected, the button will appear green, to show the completed status.

PLEASE NOTE: Date display on Risk Form page is the date when User started to fill out the form and not the date when patient had the risk visit.

ADDITIONAL NOTES

These sections are exclusive to OB Care and allow the physician or provider to add additional information that is not explicitly asked in the ONAF.

In the Current Risks or Active Conditions sections, or in the separate Notes section, you will find the option to add freeform notes.

1. ADD NOTE

Select the button to 'Add Note' if you have more information regarding the member that is not already captured within the forms.

2. SUBJECT AND CONTENT

Once you click 'Add Note' enter a Subject for the note that is easily recognizable and the content of the note.

3. ADD ANOTHER NOTE

Add another note as applicable and follow the same steps as outlined in Step #2 above.

4. SAVE DATA

Click the 'Save and Continue' or 'Back' button to save the data and navigate to the previous section [Back] or the next section [Save and Continue] to review the final form.

The screenshot displays the OPTUM OB Care interface. At the top, there is a navigation bar with links for 'OPTUM', 'OB Care', 'My Workspace', 'Inbox', 'Add Patient', 'Archive', 'Support', and 'Account'. A notification icon with '12' is also present. Below the navigation bar, there is a patient overview card for 'JANE DOE' with details: 'DOB: 1/8/1995', 'Age: 25', 'MCO Member ID: 123456789', and an 'Archive patient' link. A 'MEMBER OVERVIEW' button is located below the card. The main content area is titled '8 ADDITIONAL NOTES' and 'First Prenatal'. A callout '1' points to an 'ADD NOTE' button. Below this button, it says 'No notes added.' A callout '2' points to the 'Subject' and 'Content' input fields. A callout '3' points to an 'ADD ANOTHER NOTE' button. At the bottom, there are two buttons: 'SAVE AND CONTINUE' (callout '4') and 'BACK'.

REVIEWING AND SUBMITTING A FORM

After completing the form, review the form before submitting.

1. REVIEW THE FORM FOR ACCURACY

Review the data entered on previous screens to ensure accuracy and completeness.

2. EDIT FORM

After review of the completed form, if any changes are needed, these can be done by navigating back via the section status menu and selecting the appropriate section.

3. ATTESTATION

Select the box to attest that the information is true and correct to the best of your knowledge.

4. SUBMIT

Once all information is validated and attestation is checked, click the 'Submit' to send the form to the selected MCO. Text above the submit button will remind you once more to which MCO this form will be submitted. After clicking submit, you are automatically returned to the home page and a message displays at the top indicating the form has been submitted.

5. PRINTING THE FORM

If you wish to print the form, you may do so at the end, by clicking the Print button.

NOTE: Any "additional notes" added in the additional notes section will be submitted with the form. It will not appear on the form but on an additional page.

The screenshot displays the 'REVIEW FORM' step in the OPTUM OB Care system. The patient profile for TEST2 ALEXANDER is visible, including DOB (1/19/1978), Age (42), and MCO Member ID (0123zyxw). The form being reviewed is the 'OBSTETRICAL NEEDS ASSESSMENT FORM (ONAF)'. The form includes sections for 'OB/GYN Office Information', 'Member's Information', 'Past OB Complications', 'Current Risks', and 'Active/Medical/Mental Health Conditions'. A '3' is placed over the attestation statement: 'I affirm that the information submitted is valid and is part of the patient's medical record.' Below this, the submission target is identified as 'Submitting to AmeriHealth Caritas PA'. At the bottom, there are '5 PRINT' and '4 SUBMIT' buttons. The footer contains 'Copyright © 2020 — OPTUM — All Rights Reserved' and links for 'Terms of Use' and 'Privacy Policy'.

ARCHIVING A PATIENT

If a patient record for any reason must be moved from the inbox (e.g. transferred care to another clinic, miscarriage, pregnancy terminated) you can choose to archive the patient. This will move them into the Archive section of the application.

The archive section contains all patient records that have been archived, and those patient records that have been completed for the entire pregnancy (including the post-partum form).

1. TO ARCHIVE A PATIENT RECORD:

Click on the patient record from the Inbox. In the mini-profile on the upper right, click “Archive patient.”

You will be asked to select the reason for archiving the patient before clicking submit.

This will move the patient record to the archive.

ARCHIVE

1. ARCHIVE

Use the 'Archive' navigation link at the top of the page, or from 'My Workspace' click the tile 'Archive.'

If a patient has discontinued their care at the clinic, had a miscarriage, completed the pregnancy, or for any other reason their record needs to be removed from the inbox, you move them to the Archive. You cannot edit a patient again after it has been archived, this is a permanent action. In the archive, you may view these archived patient records.

This feature may also be used in the event that there is an error which caused the ONAF to be returned back to the provider. The provider may archive the patient and create a patient to submit the correct visit type with the needed changes.

The filters, numbers of results and pages work in the same way as the Inbox.

To view an archived patient record, click the document icon.

The screenshot displays the 'ARCHIVE' section of the OPTUM OB Care interface. At the top, the navigation bar includes 'OPTUM | OB Care', 'My Workspace', 'Inbox', 'Add Patient', 'Archive' (highlighted with a red circle and the number 1), 'Support', and 'Account'. Below the navigation, the 'ARCHIVE' title is followed by the subtitle 'View Reporting on active and completed Assessments'. A filter button labeled 'ADD FILTER' is on the left, and a pagination indicator 'Showing 1 - 1 of 1' with a dropdown for '10' is on the right. The main content is a table with the following data:

FULL NAME	DOB	MEMBER MAID	SUBMITTED BY	SUBMITTED DATE	LAST VISIT TYPE	STATUS	ACTION
Jane Doe	1/8/1992	485930239	--	--	Prenatal	Canceled	

Below the table are 'BACK' and 'NEXT' buttons, and a 'Page 1 of 1' indicator. The footer contains 'Copyright © 2020 — OPTUM — All Rights Reserved' and links for 'Terms of Use' and 'Privacy Policy'.

DATA CARRYOVER BETWEEN VISITS

One benefit of submitting your ONAFs through this application is that the data carries over between visits. This eliminates the need to copy over information each time you submit a patient's ONAF.

After submitting an ONAF (e.g., the First Prenatal ONAF) the subsequent form will be pre-populated with the data entered for the previous visit. Any changes to the data can be made, but are not necessary if nothing has changed (e.g., if the patient's phone number has changed, you can correct it. Otherwise you can leave it the same but the effort is spared to re-type it.)

This is the case on all sections of the form, including those that have information for all 3 trimesters (e.g., Current Risks has a check box for each trimester).

FOR THOSE USERS DESIGNATED AS THE CLINIC ADMIN:

From 'My Workspace' click the tile 'Admin.'

The Admin screen allows admins to manage the users within their clinic that will have access to patient data. Only admins will see the "Admin" tile on their workspace. Admins are responsible for approving other users to their clinic.

1. LIST OF USERS IN THE CLINIC

You will see a list of all users, active and inactive in your clinic. This list is color-coded for convenience. To edit a user's permissions, click the pencil icon.

2. ACTIVE/INACTIVE STATUS

To approve a user to work with patient data, change the status from 'Pending' to 'Active.' If a user no longer should be able to log into the tool and be able to access patient data (e.g., left the position), you can change their status to 'Inactive.'

NOTE: Users who have not logged in to their account in 90 days will be set to inactive and must be reactivated by their clinic admin.

3. CHANGING USER ROLES

To change a user's permissions, select one or more user roles.

PROVIDER – can access and edit patient data.

STAFF – can also access and edit patient data.

ADMIN – can approve users to the clinic.

The screenshot shows the 'ADMIN' interface for 'Manage Users'. At the top, there's a navigation bar with 'OPTUM | OB Care' and links for 'My Workspace', 'Inbox', 'Add Patient', 'Archive', 'Support', and 'Account'. Below the navigation, there's a header with the 'ADMIN' title and 'Manage Users' subtitle. A table lists users with columns for NAME, USERNAME, ROLES, EMAIL, CLINIC, and STATUS. A red circle with the number '1' highlights the pencil icon in the first row, indicating the edit function.
