

# Important Provider Notice

June 2023

## Highmark Wholecare ID Cards Changing July 2023

Beginning July 1, 2023, the ID numbers for Highmark Wholecare Medicaid and Medicare members will begin with a three-character prefix. The eight-digit numeric portion of the member ID will not be changing. As a result of these changes all Highmark Wholecare Medicaid and Medicare members will receive a new Highmark Wholecare ID card in July.

These changes are taking place to align with BlueCard requirements from the Blue Cross Blue Shield Association. BlueCard enables members to obtain healthcare services while traveling or living in another Blue Cross and Blue Shield company's service area. The program links healthcare providers with all BCBS companies across the nation through a single electronic network for claims processing and reimbursement.

Participating providers should continue to submit their claims to Highmark Wholecare using only the numeric portion of the member's ID.

In addition to the updated member ID, the designated lab will be removed from all Highmark Wholecare Medicaid ID cards beginning in July. This is being done to align with the June 1, 2023, update that removed the requirement for Highmark Wholecare Medicaid members to obtain laboratory services at a designated lab.
